Responsive Web Design

Wasif Raza

MERN Stack Developer | React.js, Next.js, Node.js & Three.js/GSAP | Integrating AI Agents & Automation
Karāchi, Sindh, Pakistan

Summary

I am a MERN Stack Developer passionate about building scalable, high-performance web applications and creating exceptional digital experiences. My expertise spans React.js, Next.js, Node.js, Express.js, MongoDB, JavaScript, and TypeScript, enabling me to develop modern, responsive, and user-friendly applications from concept to deployment. I specialize in crafting immersive frontend experiences using GSAP and Three.js, bringing websites to life with smooth animations, interactive interfaces, and 3D web experiences. I believe great software should not only function flawlessly but also deliver an engaging user experience. Beyond traditional web development, I build AI-powered solutions by integrating AI agents and workflow automation into web applications. I enjoy developing intelligent systems that automate repetitive tasks, connect multiple services, and improve productivity through modern AI technologies. My focus is on writing clean, maintainable, and scalable code while following best practices in performance optimization, accessibility, and responsive design. Whether developing full-stack applications, implementing advanced frontend interactions, or integrating AI-driven automation, I strive to build solutions that create real business value. Core Technologies: React.js • Next.js • Node.js • Express.js • MongoDB • JavaScript • TypeScript • GSAP • Three.js • REST APIs • AI Agents • Automation

Experience

Technyx Systems
Frontend Engineer
July 2023 - Present (3 years 1 month)
Karāchi, Sindh, Pakistan

Planet01
Web Developer
April 2023 - May 2023 (2 months)
